REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

As pointed out by Applicant, the primary reference, Garbe, teaches the transdermal drug system substrate and ingredients of Applicant, but fails to teach a method of selectively removing the solvents from the substrate. Rather, Garbe teaches the traditional method of oven drying. As outlined in the instant specification, traditional drying ovens remove some of the desirable resident volatile drugs and excipients, along with the non-resident solvents, requiring manufacturers to over-formulate their drug patches to compensate for the loss of resident volatile components in oven drying. Examiner used the Huelsman reference to teach the alternative drying apparatus components of Applicant, which slows down the removal of solvents from substrates, but this reference fails to teach that his apparatus is useful in therapeutic delivery devices or in selectively removing volatile solvents, while leaving *desirable* volatile components of the composition behind (such as volatile, resident drugs or excipients). There is no motivation to combine Garbe and Huelsman and then to modify Huelsman from an apparatus for removing volatile solvents to an apparatus for selectively removing only certain volatiles. The instant method will reduce costly losses of desirable, resident volatiles.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

2. In light of Applicant's arguments, Examiner withdraws the previous restriction requirement and now includes claim 22 with claims 1-21. Claim 22 is deemed allowable herein for the same reasons outlined above, as claim 22 incorporates the limitations of allowable claims 1, 2, and 16.

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer K Michener whose telephone number is (571) 272-1424. The examiner can normally be reached on Monday through Thursday and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Shrive P. Beck can be reached on 571-272-1415. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
